10/2026

ASEPTOMAN® FORTE

PRODUCT DESCRIPTION

ASEPTOMAN FORTE is a virucidal, ethanolic hand disinfectant. **ASEPTOMAN FORTE** achieves a comprehensive spectrum of activity, while showing a very good skin compatibility. Limited spectrum of virucidal activity and virucidal (according to EN 14476) within 30 s. **ASEPTOMAN FORTE** has been proven to increase skin hydration as well as softens and smoothes the skin thanks to a proven skin care system and is particularly skin-friendly.

APPLICATIONS AND NOTES

Range of application

Hygienic and surgical hand disinfection.

Application

The hands must be kept moist by the undiluted product for the complete application time. If necessary apply hand disinfectant in portions again.

Composition

100 g contain: 85 g Ethanol

Shelf life after opening: until the end of expiry date.
Shelf life in the dispenser: 6 months, provided that the dispenser is kept in perfect hygienic condition.
Shelf life in the container or in the airtight dispenser system until the end of the shelf life.

Precautionary and hazard statements

Highly flammable liquid and vapour. Causes serious eye irritation. Harmful to aquatic life with long lasting effects. If medical advice is needed, have product container or label at hand. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Dispose of contents/container to approved disposal company or local collection.

For professional use only.

Use disinfectants safely.
Always read label and product information before use.
