

DESCOLIND COMFORT LIGHT CREAM

1 / 2

Light care cream
pH skin neutral
with a fresh scent

Perfumed skin care cream - for normal skin

- Pleasently scented oil-in-water emulsion for normal skin
- Absorbs quickly into the skin without leaving a greasy residue and minimizes interruptions to work processes
- pH skin neutral. With refatting agents and allantoin for a pleasant skin feeling

Product description

DESCOLIND COMFORT LIGHT CREAM is an economical, pH skin neutral oil-in-water (O/W) emulsion for normal, healthy skin. DESCOLIND COMFORT LIGHT CREAM cares for hands after activities that are hard on the skin, such as wearing gloves for long periods of time, washing hands, and activities involving contact with moisture. As an O/W emulsion, DESCOLIND COMFORT LIGHT CREAM absorbs particularly quickly without leaving a greasy residue, making it ideal for medical staff: despite frequent use, work processes are not disrupted and hands remain noticeably cared for. The light and nourishing formula with refatting and hydrating ingredients as well as allantoin ensures smooth and supple skin.

Range of application

In all medical areas for hand and skin care, after frequent contact with water and soap.

Application

Apply a thin layer of DESCOLIND COMFORT LIGHT CREAM to clean, dry hands and massage in thoroughly. Pay attention to fingers, between fingers, fingertips, and nail folds. DESCOLIND COMFORT LIGHT CREAM is a very economical care lotion, so even a small amount is sufficient for the skin care of normal skin.

Ingredients

AQUA, ETHYLHEXYL STEARATE, ISOPROPYL MYRISTATE, STEARYL ALCOHOL, POLYGLY-
